**TRANSFERPETTE® S VARIABLE VOLUME PIPETTE**

- 100-1000ul single channel, variable volume, air displacement pipette.
- Allows you to work efficiently and ergonomically with both small and large volumes.
- Low operating forces and a short stroke ensure relaxed pipetting, even during long pipetting series.
- The volume-change protection is easy to operate with gloved hands and protects set volume against accidental adjustment.
- Slim shaft for sampling from narrow vessels
- Universal tip cone.
- Colour code on volume adjustment wheel, shaft and volume-change protection.
- Easy calibration technology.
- Operating temperature from +15 °C to +40 °C.
- Vapor pressure up to 500 mbar.
- Viscosity up to 260 mPas.
- Autoclavable at 121°C.

SKU: O1169699 PACK SIZE: Each PRICE: €158.74

**TRANSFERPETTE® S FIXED VOLUME PIPETTE**

- 1000ul single channel, fixed volume, air displacement pipette.
- Allows you to work efficiently and ergonomically with both small and large volumes.
- Low operating forces and a short stroke ensure relaxed pipetting, even during long pipetting series.
